# Product Change Notification

**PCN Publish Date:** 10/08/2008

**PCN#:** 310

**Change Title:** Product Process Change

**Products Affected:**

Fox Model Number	Fox Part Number
FX252B	637- Frequency-xxxxx*

\*(xxxxx = random number. For more information on Fox part numbers, see <http://foxonline.com/onefamilytype.asp> on the Fox website.)

**Description of Change to the Customer:** In an effort to increase productivity and restrain costs, we are changing the lid seal process from an AuSn seal to seam seal.

An 'S' will be added to the model number and to the product family code to differentiate the seam seal process. These are the numbers that should be used for all future orders:

New Fox Model Number	New Fox Part Number
FX252BS	637S- Frequency-xxxxx

The dimensions and electrical performance for product manufactured with the seam seal process are unchanged from the AuSn process. (No changes to form, fit, or function.)

**Schedule of Change:** Change is effective immediately.

**Customer Impact and Response:** This process change should have no impact on our customers. If you have any questions, please email Fox Technical Support at [www.foxonline.com/email.htm](http://www.foxonline.com/email.htm) or call 239-693-0099.
