

SAFE USE INSTRUCTIONS

Article: FSRLF; KFSR; FSXLF; KFSX

Substance: Lead CAS Number: 7439-92-1

This product is an article, without intended release of a chemical substance, under the REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). This safe use instruction satisfies the REACH Article 33 Duty to communicate information on substances in articles.

1. USE/EXPOSURE SCENARIOS

Use

Stable under normal use; no expected hazardous emissions. An exposure evaluation is recommended to define appropriate engineering and administrative controls.

Toxicological Information

Toxic to Reproduction in accordance with Article 57c of REACH.

Assembly / Disassembly

These activities may cause some very minor transfer of residue onto unprotected skin. It is recommended that Personal Protective Equipment (PPE) be used when handling, assembling/disassembling articles.

Mechanical Removal

Mechanical removal such as grinding, buffing or media blasting techniques may generate hazardous particulates that must be disposed of in accordance with local regulations. Any mechanical removal should be done with proper ventilation and the appropriate PPE in place.

2. EXPOSURE CONTROL

Engineering Controls

Exhaust ventilation/dust collection should be used to limit airborne concentrations to the lowest possible level. Follow the local regulatory Occupational Exposure Limits (OEL).

Personal Protective Equipment

Skin: Protective clothing to avoid contact with exposed skin such as gloves, face coverings, etc... Disposable/single use protective clothing is recommended.

Eyes: Safety glasses and/or goggles are recommended.

SAFE USE INSTRUCTIONS

Respiratory protection: An exposure assessment should be conducted to determine the level of respiratory protection required for the process. The respiratory protection program should comply with applicable laws and regulations.

Disposal Considerations

Participation in end-of-life product take-back programs is recommended, if available. If not available, reuse or recycle material whenever possible. If reuse or recycling is not possible, dispose of according to applicable governmental regulations.
